WILL BE MORE THAN LEGISLATION

While the duties of the special session of the legislature, which has been called for next week, are confined in the call to the allocation of money to carry on relief work and extend the 10-year installment tax measure, there is quite likely to be some extraneous things interjected.

Legal limitations do not restrict men's tongues, and they can wag as much as they please, regardless of whether what is said is germane to the matter in hand or not.

There is a considerable number of legislators who have laid in a supply of ammunition and will be out gunning for the governor. This element is not confined to the opposition party, which can always be depended upon to raise a ruckus and throw sticks in the roadway that the chariot of the chief executive travels.

Members of his own party are not too well intentioned toward their leader, whose record of performance as far as politics and statecraft are concerned is nothing to which one "can point to with pride." The sore feeling was caused by the cracking of the party whip and then when a favor was asked, having it either ignored or turned down—which hardly falls within the category of gratitude. This session will be the last opportunity offered to even up the score and it is rumored that many will take advantage of it.

Those who are connected with the Merriam recall movement doubtless will have their friends in the legislature diligently at work using every endeavor to put the governor "in a hole," which should not be such a difficult task after all, for he is one gentleman in politics in the State of California who is very vulnerable.

Allot Cash For Work On City Harbor

Press dispatches from Washington yesterday stated that an allotment of \$57,600 for new dredging in the Richmond harbor has been included in war department appropriations approved by Congress.

The allotment will cover cost of dredging approaches to Point San Pablo, Point Orient and the Standard Oil long wharf on the outer harbor and to dredge a connecting channel between the inner harbor and Santa Fe canal. City Manager J. A. McVittie said:

Approaches to Point San Pablo, Point Orient and Standard Oil long wharf have become filled with silt and new dredging is required to make them available to large ships. On the inner harbor or a small section of the Santa Fe canal was not dredged to the depth of 32 feet as in the other section of the harbor. The new allotment will take care of making the canal deeper.

No mention was made in the dispatches of provisions for maintenance of the harbor but McVittie believes that this will be taken care of.

The Richmond harbor allotment was one of the \$137,000,000 allotments voted by Congress.

Traffic Safety Signs Planned

Placing of warning signs on the main highway at the city boundaries, similar to those in Berkeley, were discussed yesterday when the Richmond Traffic Safety Council met at Hotel Carquinez with T. C. Gray in charge.

The relationship of the council to enforcement of traffic laws and ordinances and the activities of individual members of the council were discussed at the round-table session.

Judy Says "No"

BROADWAY GOSSIP has it that Judy Stewart, above, former Broadway chorus girl, will be the third Mrs. Andy Valle when and if a divorce between the bandmaster and his present wife is effected. But Miss Stewart, returning from a Maine vacation, said it wasn't true.

Cooking School To Open On Wednesday

Of great interest to the housewives of Richmond is the Record-Herald announcement of its Happy Kitchen Cooking School, to be held three days, May 27, 28 and 29 at the Richmond Club House, 1125 Nevin avenue. Under the personal direction of Miss Barbara Miller, the national known home economist who has helped thousands of home makers—brides, young mothers and older housewives—the cooking school promises to be one of unusual benefit, as well as providing delightful entertainment through the sparkling and pertinent remarks of Miss Miller.

Miss Miller says, "Cooking has been my hobby, as well as my vocation, for a number of years. I know of no art where creative ability and imagination bring greater dividends than in the realm of cookery. Every woman who has baked a perfect pie, with a light, flaky crust and delicious filling, or prepared a cake that is a joy to behold and a delight to eat, feels the same thrill of accomplishment as the artist when he views the inspired painting he has just finished."

"Housework too often is regarded mainly as dull routine, while the career of the woman in the business world is looked upon with envy. But the housewife has an independence, a chance to use her ingenuity, and express her individuality, for a number of years. I

Four Will Seek Office On High School Board

Four persons will seek election to the high school board of trustees at the election on Friday, June 5.

Nomination papers were filed yesterday, the final day, with County Superintendent of Schools B. O. Wilson by two incumbents and two candidates.

Ira E. Scott and W. A. Hislop, the two incumbents are seeking re-election. They will be opposed by Mrs. Violet Klemm, local PTA member, and Oscar C. Hendriksen, WPA official.

Under the new school code adopted last session, the high school board election is being held two months later than usual.

Richmond Infant Is Taken By Death

Funeral services will be held tomorrow morning at 10 o'clock from the Wilson and Fratzog chapel for Stephen Leroy Poore, two-months old son of Mr. and Mrs. Harold Poore, 2828 Esmond avenue who died yesterday.

The child leaves his parents, a sister, Donna Marie and a brother, David Eugene.

MRS. BOVE HAVELY of Santa Ana is visiting her sister Mrs. Elsie Wellerson.

Townsend Faces Contempt Charge

ENGLAND IS PREPARED TO HELP EGYPT

LONDON, May 21.—UP—Prime Minister Stanley Baldwin today explicitly warned Italy against interference in Egyptian affairs and declared Great Britain will repel any act of aggression against Egypt by all the means at Britain's command.

The blunt warning closely followed reports of Italian troop concentration near the Anglo-Egyptian Sudan border in northwest Ethiopia and around Lake Tana, headwaters of the Blue Nile which furnishes a large part of the water supply for the Sudan.

POSITION OUTLINED
Replying to a questioner in the House of Commons, Baldwin briefly outlined Britain's position regarding Egypt.

In connection with termination of the 1922 project for a new canal, in 1922, he said, the British government unmistakably "made it clear that Great Britain will regard as an unfriendly act any attempt to interfere in the affairs of Egypt by any power and would consider any aggression against the territory of Egypt as an act to be repelled by all means at Britain's command."

Three Machines Badly Damaged In Crashes Here

Three automobiles were badly damaged in two accidents reported to police yesterday.

A bread truck driven by E. A. Carpenter, 3378 Sutter street, Oakland, overturned and was damaged at Seventh street and Pennsylvania avenue. Carpenter reported that he averted to avoid hitting another car. The driver was not injured.

Cars driven by Miss Edith Treanor of the Hotel Carquinez and Florence Weisshaar of 2091 California street, Berkeley, collided at Fourteenth street and Macdonald avenue. Miss Treanor's car then crashed into a power pole, breaking the pole off at the base. Neither driver was injured.

Sciot Pyramid Pays Visit To Masonic Lodge

Richmond Pyramid of Scioets, headed by Dr. George Boehmer, last night paid a fraternal visit to McKinley Lodge of Masons.

The guests were received by Leon Michel, master of the lodge, who introduced the officers of the pyramid.

A program was presented by the Scioets, featuring accordion numbers by Master Ramonelli; feats of magic by Lloyd Jones and orchestra selections directed by Ed Hill.

McKinley Masons served refreshments at conclusion of the meeting.

MARTINEZ, May 21.—Notice of intention to wed were filed with the county clerk today as follows:

Walter L. Keelen, 21 and William C. Freitas, 18, both of Moraga.

Woodrow Lester Marshall, 22, of 427 24th street, Richmond and Bernice Herman, 18, of 724 22nd street, El Cerrito.

Pilot Slugs Girl To Stop Suicide Try

BOSTON, May 21.—UP—An unidentified young girl was prevented from leaving to death from an open cockpit airplane at East Boston airport late today when a pilot "slugged" her and held her in the cockpit until she was subdued.

The girl, between 19 and 20 years of age and a familiar figure at the airport, was the only passenger on the Inter City Airlines plane. She was seated behind Sutherland, well known Boston pilot.

TRIED TO LEAP
As the plane cruised over Boston harbor three miles off the airport at an altitude of 10,000 feet, Sutherland said he looked back and saw the girl climbing over the side.

He sent the plane into a spin, forcing the girl back into the cockpit, and leveled off at 3,000 feet. At this point, Sutherland said, she rose to her feet and this time he grabbed her by the hair and struck with his fist.

FITS UP FIGHT
With the girl putting up a terrific fight, the pilot managed to hold her with one hand and devote the other to the controls.

Sutherland retained his hold on her, fearing she would leap out and run into the full whirling propeller.

GIRL IS MEND
Attracted by Sutherland's unusual landing, a ground crew rushed to the ship.

The struggling girl collapsed as she was placed in the field ambulance. She was taken to the Inter City offices and questioned by Manager Paul Battilione whose suspicions were aroused by her actions prior to the flight. She refused to talk and remained cool until police arrived. Then she put up another struggle.

Bids Called For Paving Of New Bridge Highway

Bids have been called for June 10 by the State highway department for the grading and paving of the Richmond-Albany Berkeley link of the East Shore highway connecting the northern approach to the Oakland-San Francisco bay bridge.

Included in the call for bids are 2.1 miles of highway starting from San Pablo avenue near Cutting boulevard to Camella street in Berkeley.

The new highway will cost about \$200,000. Work will be started about July 1 and will be concluded some time in November.

The new highway, for which rights of way have been obtained, leaves San Pablo avenue near Cutting boulevard, and cuts through the Stege district and Richmond Annex at an angle, passing to the hill in the Bay View district and passing over Forty-fifth street. It will cross Panhandle boulevard and swing into San Joaquin street, thence along San Joaquin street to No Man's Land, where a fill will be required to rise over the top of Cerrito hill. It will connect with the new trestle over the Southern Pacific tracks at the rear of the old GHI nursery in Albany.

Fenwick Rites Here Saturday

Rev. J. Chester White will officiate at funeral services to be held Saturday afternoon at 1:30 for the late Mrs. Marie P. Fenwick who died at her home in San Pablo Wednesday.

Program For Water Rites Is Announced

Final plans have been completed by the Honor Auxiliary, Veterans of Foreign Wars, for the water service program to be held on Sunday at one o'clock aboard a Richmond-San Rafael ferry boat.

Mrs. Anna Zurliken, president of Honor Auxiliary, has announced the following program:

Opening address by Mrs. Zurliken.

"America" by High School band directed by George M. Morris.

Invocation by Rev. J. Chester White.

Song, "Asleep on the Deep," by Rev. Chester White.

Placing of wreaths on water by patriotic orders.

Address by Mayor W. W. Scott.

Salute by V. F. W. firing squad.

Launching of boat and distribution of flowers from planes.

"Taps" by Boy Scouts.

"Star Spangled Banner" by high school band.

Benediction by Rev. Casey.

The public is cordially invited to attend these services. The boat leaves the local wharf at one o'clock. The lineup to go on the boat will be as follows:

Flags followed by banners; Mayor Scott, T. H. DeLap, Rev. White and Rev. Casey; firing squad; Spanish War Veterans; Foreign War Veterans; Legion; Ladies of G. A. R.; Gold Star and War Mothers; Spanish War Auxiliary; Foreign War Auxiliary; American Legion Auxiliary; Boy Scouts; High School Band; visitors.

Badoglio Heads For Home When Crisis Arises

ROME, May 21.—UP—Marshal Pietro Badoglio, viceroy of Ethiopia and chief of the Italian general staff, arrived at Asmara, Eritrea, today en route to Italy.

Authorized press messages quoted Badoglio as saying he was "on a few days brief furlough."

However, it was reported reliably that Badoglio's return from East Africa was hastened by official preoccupation regarding the Austrian situation, brought to a head last week by a bloodless coup d'etat in which Premier Mussolini's protegee, Prince von Starheimberg, was ousted as co-dictator.

Pair Abandon Hope; To Die At S. Q. Today

SAN QUENTIN PRISON, May 21.—UP—Black haired Alexander Mackay, erring subject of his Royal Highness King Edward VIII, turned bitter and vindictive in his deal, cell tonight and invited California officials he blamed for his fate to attend his execution and that of his pal, Joe Kristy, so "they can see what they have done to us."

HOPE ABANDONED
Apparently abandoning all but a slim thread of hope of a last minute reprieve to postpone the double execution Friday morning, Mackay issued a series of statements from the death cage near the white painted door of the gallows room.

One he addressed to the British people, whose government tried vainly to halt the execution and have the death sentence commuted to life imprisonment. Great Britain protested death was too severe a penalty for the crime of kidnapping with which the two men were charged.

"ARE INNOCENT"
Speaking for himself and Kristy, a former Cleveland youth, the 25-year-old Scotman said to the people of his country:

"We are not afraid to go at any time because we never killed, harmed or kidnapped anybody for robbery or ransom."

"We never did anything for which we should hang. We go to the gallows knowing we are innocent."

Battery E Will Take Part In Local Parade

Battery E 143rd Field Artillery of Richmond, will enter the Flag Day parade here on the evening of June 8, according to announcements made last night by Captain R. D. Ferris, C. O.

In addition to the local organization, a battery from Oakland and the regimental band will participate in the parade and ceremonies.

Reports were heard that work on the army will be completed in the very near future and the building will be ready for occupancy before the local unit leaves for its annual summer camp.

Uniforms for the members of the battery are expected to arrive within the next few days.

Several vacancies in the battery exist, Captain Ferris announced. Applications will be received at the battery headquarters.

Gun drill was held by the group last night.

Work Started On Building Of New Oil Station

Work was started yesterday on the construction of a new service station on the southwestern corner of Twenty-second street and Macdonald avenue.

The new station will be the future business home of A. C. Coster, well known local service station and auto fire dealer.

Coster announced that the new establishment will be ready for occupancy on July 4th. The station will be one of the most modern in the bay area.

The land was purchased by Coster recently.

FORESTERS IN SESSION

WATSONVILLE, May 21.—UP—State Assemblyman William Hornblower of San Francisco, supreme chief ranger of the California unit of the Foresters of America, presided over the opening session of the organization's 47th state annual convention here today.

The Foresters and their auxiliary, the Companions of the Forests, were presented the official welcome to the city by Mayor C. H. Baker.

DARP HEAD WALKS OUT ON SOLONS

WASHINGTON, May 21.—UP—Dr. Francis E. Townsend late today defied the Bell committee to arrest him and walked out of its investigation into his \$200 a month pension scheme. Fifteen minutes later the dazed committee decided to ask the House to cite him for contempt.

With startling suddenness, the aged California physician whose idea of pensions for all over 60 attracted contributions totaling \$1,000,000 in two years, confronted the committee, charged its inquiry was "unfair," clamped on his hat and stalked from the hearing room.

MEETING STUNNED
With a friend on either arm he walked some 80 feet to the door before any member of the committee said a word. Then someone shouted:

"Close the door! Close the door!"

But it was too late. Townsend was outside. One of those accompanying him was the Rev. Gerald K. Smith, organizer for the "share our wealth" movement. Smith straight armed a reporter and bundled Townsend into a taxicab, exhibiting a toothy grin over his shoulder as the cab roared away.

\$58 In Wallet Is Returned By Honest Youth

Roderick MacLennan, of 553 Third street, has decided that people are honest.

Last evening MacLennan stopped at Fourteenth street and Macdonald avenue at the scene of an automobile accident. Later he climbed into his machine and drove away.

Some time later he discovered that he had lost his wallet containing \$58.

Shortly after Howard Thompson, 10, of 1317 Barrett avenue found the wallet and turned it over to police. MacLennan was called and his money was returned.

Plans Made For Fall Institute

MARTINEZ, May 21.—UP—Already planning for fall institute, bay area and Contra Costa county bay educators have designated November 25 as a general session day and the two following days as devoted to individual meetings for each county unit.

General sessions are to be held in the Oakland high school auditorium and the Oakland auditorium theatre. In some instances sessions provided by individual superintendents will be held during the regular institute period and others distributed throughout the year.

A special committee consisting of Harry W. Jones, chairman, Walter T. Helms of Richmond and Dr. Virgil Jackson, is responsible for diversion programs.

CARDINALS IN LEAD AGAIN IN NATIONAL RACE

NEW YORK, May 21.—UP.—The St. Louis Cardinals recaptured the National League lead today, snapping the New York Giants' nine-game winning streak with a 4 to 2 decision.

The Cards scored three times in the ninth to defeat Al Smith who had allowed only three hits up until that time. Paul Dean pitched for the Cards. The win put the Cards half a game in front or just where they were at the beginning of the two-game series.

The Chicago Cubs scored a 4 to 0 victory over the Brooklyn Dodgers as Henshaw set the Dodgers back with only seven hits. The Cubs collected 13 hits off Frank Henshaw and Barnshaw.

Bill Urbanski's double in the ninth scored Al Lopez from second with the winning run in the Boston Bees' 3 to 2 triumph over the Cincinnati Reds. Lanning allowed the Reds only four hits while the Bees collected nine off Stine.

The Pittsburgh Pirates put on a six-run scoring burst in the ninth to defeat the Philadelphia Phillies 7 to 4. Jensen climaxed the rally with a home run, scoring two of his mates. Birkhofer was the winning pitcher; Jorgens, the loser.

The New York Yankees, American League leaders, were bowled over by the Detroit Tigers 10 to 9 as the Bengals ran their current winning streak to six games. Detroit put up a dogged fight, coming from behind twice and scoring the winning run in the ninth. Kimsey, fourth of the Detroit hurlers, was the winner and Kleinhaus, who had followed Gomez, Murphy and Hadley to the mound for the Yanks was the loser.

The Boston Red Sox pulled up into a virtual tie for the lead by whipping the St. Louis Browns 6 to 2. Wes Ferrell chalked his fifth victory as he gave only seven hits. Fox homered for his 10th circuit clout of the year.

Washington's Senators handed the Cleveland Indians their fourth straight defeat, 7 to 4, choking off an Indian rally after three runs had been scored in the ninth. Whitehill gave up only eight hits in winning.

It took the Chicago White Sox 14 innings to trounce the Philadelphia Athletics 3 to 2, in a pitchers' duel between Whitehead and Kelley. Kelley lost in the 14th when Appling singled after three men had walked.

State Strikes Telling Blow In Rape Trial

NEW YORK, May 21.—UP.—The State struck its hardest blows today in its efforts to send John Florence to the electric chair for the assault-murder of Nancy Evans Titterton and the sleek young, paroled convict sat through it, all, detached and impassive.

A piece of the cord he admittedly used to bind Mrs. Titterton's hands behind her was identified by Theodore Kruger, his former employer who also described on the witness stand Florence's callousness in the presence of the woman's dead body.

Florence's confession of the crime was read to the court by Detective George J. Swander in all its details. Photographs of the over-axed, yellow, Florence re-enacting for police the attack on Mrs. Titterton and her murder by strangulation were accepted as evidence, a telling point since defense counsel has repudiated the confession.

Court Refuses To Interfere In Marital Mixup

SAN FRANCISCO, May 21.—UP.—The State Supreme Court today denied without comment a hearing to Walter Emerson of Los Angeles, who sought a review of the decision of the State Appellate Court, which affirmed the decision of the Los Angeles County Superior court, in refusing him a divorce from his wife, Jane.

The case attracted wide attention in that Emerson is suing for a divorce named Barton Sewell as co-respondent, and Mrs. Leah Sewell then promptly filed for divorce from Barton Sewell and named Jane Emerson as co-respondent.

Judge Ben Lindsey in denying either party a divorce, held in the Emerson case that the relations were with the consent of the husband, and in the Sewell case that there was insufficient evidence. The State Appellate court affirmed this decision and the state supreme court closed the case without comment today.

Former Senator, Sister Lose In Heart Balm Suit

MT. VERNON, O., May 21.—UP.—Former Senator Clarence C. Dill, of Washington, D. C. and his sister-in-law, Mrs. Grace Dill, were ordered by a jury tonight to pay \$5,000 to Margie Heaton Dill for alienating her husband's affections.

The 20-year-old estranged wife of Wendell Dill, a stenographer in an attorney's office, was upheld in her charge that the former senator and the older Mrs. Dill conspired to separate her from her husband because the marriage interfered with his career.

The verdict, returned by a jury of eight women and four men gave young Mrs. Dill \$20,000 less than she asked.

Pageant Will Be Feature Of Big Auto Race

OAKLAND, May 21.—A colorful pageant of early California days promises to be one of the outstanding features of the first annual 200-mile Pacific Coast championship stock car race Sunday afternoon, May 31, on the Oakland Speedway, America's fastest mile track.

This was revealed today by Speedway officials when two orders for blocks of 250 and 100 reserved seats were received respectively from Whisker organizations at Auburn and Sonoma. These communities in the Mother Lode country are planning a Gold Rush Days revival soon and they are coming to Oakland in two caravans to aid in publicizing it. Prior to the start of the gruelling 200-mile speed classic the Whiskerino organization at Auburn companions, all attired in costumes of a former era, will parade around the track.

Parents Of Boy Given Damages For His Lynching

NEW ORLEANS, May 21.—UP.—The parents of a 16-year-old Negro boy lynched near Abbeville, La., in 1933, were awarded \$2500 damages from Sheriff Lezin H. Himey of Assumption Parish today by a jury of white men in Federal court.

It probably was the first time in the history of the South that Negroes won personal damages for a lynching.

Prosecution witnesses said two deputies delivered the boy to the mob and that one deputy abetted the lynchers. The boy, Fred Moore, was suspected of murdering Miss Annie Mae Larose, who was found in a cane field with her throat cut. Later, the girl's stepfather was said to have confessed the murder.

ZEROLENES IN VICTORY OVER STANAVOS NINE

The Zerolenes of the Standard Oil Twilight League added another victory to its string last night when the club defeated the Stanavos by a score of 9-5 at the First Street field.

The winners scored one run in the first inning when Carson singled and came home when Baldwin smacked out a double.

The big inning was the third when three runs were scored on four hits. Bignall, the first man up, hit a triple and Kerston drove him home with a single. Carson then doubled to score Kerston and Williams singled to score Carson. The latter, by the way, had a perfect day, getting four for four and scoring three runs.

Kerston scored another run in the fifth inning when he was walked, sacrificed to second and came home on Carson's single.

Four runs were pushed across the plate in the seventh inning.

Gonsalves was safe on Zimmerman's error; Carson singled again; Williams walked and Baldwin hit a double to clean the bases. Bartoli singled to score Baldwin.

The Stanavos were held scoreless for five innings. In the sixth they broke the ice when Krasovich singled and Zimmerman doubled to bring him home.

The Stanavos staged a rally in the last of the seventh but fell short of tying the score. In that inning Vigne singled and Brenzel and Lane walked. Krasovich flew out to score one man. Zimmerman then drew a walk and Sinibaldi and Campbell hit to clean the bases. O. Johnson was an easy out to end the inning.

General William E. Gillmore, executive of the 1939 exposition.

Gillmore said such a terminal would provide San Francisco and bay cities with the finest transportation facilities available in the country. The project would include depots, garages, hangars, baggage facilities, customs service, an agricultural inspection service, an immigration station and post-office, he said.

The giant terminal would be the clearing house for air traffic across the Pacific, as well as coordinating with train, bus and steamer services, Gillmore continued.

He said the site was ideal and the only practical one in the bay district. Sea fogs rarely affect the area, he said, giving it a singular advantage over other possible sites.

Bomber Damaged In Eureka Landing

EUREKA, May 21.—UP.—Army mechanics arrived here by plane today from Hamilton Field to make repairs to a huge army bomber, which nosed over while making an emergency landing on a soggy field today.

Captain E. Erickson, in command of the plane, said he had to make the forced landing when one of the two motors of the plane went dead.

The landing field here was in poor condition because of recent heavy rains and the wheels of the bomber mired in the thick mud, stopping it abruptly and hurling it over on its nose.

Neither the captain nor his observer, Private Ott, was injured.

Governor Has More Business For Legislature

SACRAMENTO, May 21.—UP.—Governor F. F. Merriam late today extended the call of a special legislative session, which convenes Monday to include ten subjects, several of which offer possible controversial grounds.

He named as the new points a bill to restore corporate rights to firms now able to pay delinquent taxes; a bill extending the ten-year delinquent tax installment plan for irrigation districts; and special legislation adjusting an error in the steel-head fishing season law passed last session and correcting another legislative error affecting the size of Gravenstein apples.

Walker, who has had a summer home near here for 10 years, was caught by an unexpected rise of the waters when the gates of the Copco dam were opened.

Two of his guests, Mr. and Mrs. Steinlein, of Los Angeles, saw him carried away by the swirling waters but were unable to reach him before he was carried out of sight down the river.

BOARD QUILTS IN FIGHT ON GIRL SCOUTS

CARMEL, Cal., May 21.—UP.—The American Legion today was charged with attempting to gain control of the Girl Scout movement in the Monterey Peninsula area.

The assertion was contained in the resignation statements of adult leader members of the movement there.

The resignations of the 15 officials was in support of Mrs. Ralph Cooke, Peninsula commissioner, who resigned her office in protest to an ultimatum said to have been given by Mrs. W. W. Holt, regional Girl Scout commissioner, and Mrs. Jean Henry Large, district commissioner, a sister of Mrs. Herbert Hoover.

Mrs. Cooke declared that she had been ordered to appoint Mrs. Robert Stanton and Mrs. Pat Higgins, both American Legion Auxiliary members, to offices on the girl scout council.

"It is a deliberate attempt to force American Legion politics into Girl Scouting," she charged.

It has been reported that Mrs. Cooke has been criticized for sometime because of her active interest in the gubernatorial candidacy of Upton Sinclair.

WALSH JOINS 15 COMRADES IN DOG HOUSE

SAN FRANCISCO, May 21.—UP.—Police Officer Patrick Walsh, central figure in the 1934 Kamohila club investigation, tonight had an opportunity to make use of the 25 cents a day he saved by shaving himself, when Police Chief William Quinn suspended him from the force.

Walsh's suspension followed his refusal to testify before a grand jury hearing into reports of police graft, investigating personal finances of members of the department.

Meanwhile Judge Elmer E. Robinson ordered another "silent witness," Capt. Thomas G. Hoertkorn, to answer inquiries by the grand jury.

Hoertkorn and several other police officers were suspended for refusal to testify before the grand jury on matters concerning personal finances.

The Police Commission accused the "silent witnesses" of insubordination and conduct unbecoming an officer.

Walsh's suspension lifted the total under police ban to 16. One has been dismissed.

Meanwhile additional worries confronted the harassed police officers, in the form of a threat of city tax assessment on wealth disclosed by the inquiry. Chief Deputy Assessor Harold J. Boyd pointed out revenue from such a maneuver would more than pay costs of the inquiry.

Judge Robinson told Hoertkorn further refusal to talk would place him in contempt of court. This situation already exists in the case of Patrolman Joseph M. Browder, whose defiance of Judge Robinson's order will bring him into court Tuesday, with a possible jail sentence in store.

Only comfort for the beleaguered policemen came in the form of a ruling by Judge Robinson that Harold Hoertkorn, 23-year-old accountant and a son of Capt. Hoertkorn, cannot be held in contempt.

DORAN DENIES HE TOOK BAD CASH FROM S.Q.

Rev. Hubert P. Doran, pastor of Wesley Methodist Church and chaplain at San Quentin prison, yesterday emphatically denied that he had knowingly at any time carried packages containing counterfeit money out of the prison.

Dr. Doran's statement was made following testimony in a trial at San Francisco yesterday when Louis J. Murray, charged with conspiracy in the San Quentin money plot, had declared that it had been easy to get the money out of the prison. "On two separate occasions we slipped packages of the stuff to Dr. Doran of Richmond to mail for us," he said.

Murray, former civilian head of the commissary department in the prison, is charged with aiding the convicts to obtain supplies and carry on their money printing operations.

Rev. Doran said that he remembered only one occasion when Gross gave him a package. Gross, a trustee, handed it to him in the prison dining room and told him it was photographs and asked him to deliver it to a brother in San Francisco. The package was not sealed, but he did not examine its contents.

He mailed the package in Richmond and the brother later verified the fact that it contained enlarged photos of the prisoner's children.

The charges made by Gross already have been investigated, Doran said, and the brother asserted the package actually contained photographs which prisoners were allowed to send out. Doran said he trusted the man, whom he had befriended, and that he was also trusted by prison officials.

THE USEFUL SANDWICH

One of the most useful articles of food being eaten every day is the sandwich. Perhaps you have wondered how such a curious name happened to be given to the familiar sandwich. The story goes that about the middle of the eighteenth century, an English Earl who was an inveterate card player, invented a new kind of quick lunch. Not wanting to take any time away from his card playing, he asked the waiter to bring him a slice of meat between two slices of bread, so that he could eat from one hand while holding his cards in the other, without having to bother with a dish or silverware. His idea soon became popular and soon after that time, this way of taking food in sandwich form became the accepted way of getting a hurried lunch. This combination of meat and bread was given the name of "sandwich," from the name of the nobleman, the Earl of Sandwich.

While the sandwich is not as popular in other countries as it is in America, if you will go into any drug store during the noon hour, you will come to the conclusion that sandwiches form the principal part of the lunch of an American.

All kind of mixtures are used for the fillings of the sandwiches, with white, rye, wholewheat and toasted bread being used for the covering.

The ordinary sandwich can not be held the most healthful food article in the world and yet it will be continued to be used because it takes the place of a small meal, has an agreeable flavor, and is quickly served at the average lunch counter. Many a man who has not the time to wait for a steak to be cooked is content with a sandwich.

The sandwich has also become the standby of the picnic and when you wish to take your food with you on an outing, you will be sure to prepare some kind of sandwich in advance to eat out of doors. The sandwich is also highly esteemed by those who must carry lunches which are packed at home and the use of waxed paper will serve to keep the sandwich moist until you are ready to eat it.

When using sandwiches, I recommend those made of the real whole wheat bread. A filling may be used of ground nuts or nut butter and probably the peanut butter filling is the most popular one of this type. Other fillers are cheese and chicken and either will taste well with the whole wheat bread. Add leaves of lettuce to your sandwich which will help to keep it moist and will at the same time, provide you with at least a few green leaves. You will find that fillings made of finely chopped celery, or grated carrots, or minced olives will offer a change from the usual sandwich filling. You can buy the minced olive sandwich spread already in cans, and you will find this form a convenient one. Of course, the roast beef sandwich is one of the favorites and the roast beef served at Sunday dinner should last long enough so that a few sandwiches may be prepared for Monday's lunch.

Sandwiches may hardly be called the most superior kind of food but if you do use them, remember the suggestions I have made in this article.

QUESTIONS AND ANSWERS

(Bone Building Foods)

Question: Mrs. M. M. asks: "What foods could be called bone building; that is, will actually assist in the growth of strong, healthy bone?"

Answer: Two of the most important food minerals necessary for bone building are calcium and phosphorus, found in the following foods: spinach, lettuce, cabbage, Swiss chard, turnips, asparagus, tomatoes, celery, cucumbers, beet greens, figs, lemons, oranges, milk, egg yolk and others. However, before these minerals may be used in the body, there must be supplied an adequate amount of vitamin D, which vitamin aids in the utilization of the calcium and phosphorus in building a strong bone structure. Vitamin D may be obtained from food sources, for example, it is found in the yolk of egg; or from cod liver oil, and viosterol; or the body may manufacture its own vitamin D by exposure of the unclothed skin to the ultra violet rays of sunlight. One of the latest developments in the food line is the production of vitamin D foods, for example, bread and milk are now available in a form that provides vitamin D. All of this sounds rather complicated, but a simple rule for building strong bones would be: eat natural foods grown in plenty of sunlight, and expose the body to sunshine while dressed in the minimum of clothing. In short, the one living a more or less natural life, as the savage lives, would not need to worry about building good bones. Those who must consider the problem of how to grow normal bones are those who are living the life of civilization, or a life where something natural is being kept away from them. For example, the use of refined food may be depriving them of calcium and phosphorus, or indoor living may be shutting the sunlight away from the bare skin. The necessity of giving calcium concentrates or vitamin D preparations is an effort to make up for something that the patient is not getting, while following the civilized regimen of living. Under more normal conditions, such necessity would not exist.

17 Projects In Merced County Are Shut Down

MERCED, May 21.—UP.—J. H. Wade, Stockton, WPA director for the Northern San Joaquin Valley district, today explained he shut down 17 works progress projects in Merced county because farmers complained about a shortage of labor.

Wade, however, was doubtful that the men laid off from the WPA work would find other jobs. He said that if the men could not get other work, the projects would be resumed gradually.

"Almost all the men who were working on projects at the time we stopped them cannot be employed by farmers or other private employers because of their age, transportation difficulties, or because they are not able to do jobs available at the present time."

L. W. Hesse, a foreman of the Merced Irrigation District, said about 50 percent of the WPA workers are qualified for farm labor.

quality in her work, in a way that no other in an office ever does.

"For instance," continued Miss Miller "think what the clever housewife can do, with a minimum of expense, to make every room in the house a pleasant place to be. Let's consider the kitchen, and forget about the preparation of the meal for a moment. Perhaps we can't have a new stove, or some of those grand built-in cupboards, but what about a pair of gay salt and pepper shakers placed on the warming shelf of the old stove. They add a bit of brightness and cheeriness that is heart-warming. And the window curtains—do they have a limp, care-worn appearance, and a general air of discouragement? Or are they crisp, clean, and stretched to a charming perkiness, providing the right sort of frame for a pot of colorful flowers. It is amazing how fresh curtains, and the color of flowers, and small items in the kitchen, will banish any drabness, and make our 'work-shop' a place where we really like to be.

"Instead of reserving the gay little 'kitchen tools' for the kitchen shower for the bride-to-be," says Miss Miller "why not have a few in our own kitchens. The older housewife enjoys working in cheerful surroundings just as much as the new bride. If the budget doesn't permit much of expensive equipment, perhaps it will stretch to cover some new pot holders, which by the way—should be laundered as regularly as tea towels, or some of the new small kitchenware with tuscious bright red, yellow, or turquoise green handles—whose colors against the soft cream paper lining of a kitchen drawer, will give any woman a feeling of pride and satisfaction when she opens that drawer, and a new pleasure in her kitchen."

Miss Miller has ideas with ideas, and practical suggestions for making the preparation of the family meals a congenial task, and pleasant surroundings. She extends a warm invitation to all the home makers in Richmond to attend the Happy Kitchen classes, to be held May 27, 28, 29 in Richmond, and to bring along any questions about meal planning, balanced diets, budgeting, etc., for she will be delighted to give all the help possible.

Wipe Out Tuberculosis Among Children, Is Battlecry of New Group

By CLAUD NORTH CHRISMAN, M.D.

WHAT do the initials E. D. C. mean? Early Diagnosis Campaign, to be sure. The idea is used particularly by the Tuberculosis Association but its application is practicable in any sort of progressive disease.

There is now an International Society for Crippled Children which for three years has put on a campaign for selling seals. This campaign is staged at Easter time. The funds derived from the sale of the seals go to support hospitals for the surgical and nursing care of crippled children.

Kind Old Man Belies "Merchant of Death"

By TALBOT LAKE

LAURENCE VINCENT BENET, inventor and proprietor of the Hotchkiss machine gun, director and vice-president of the Societe Anonyme des Armes et de la Defense, is a French munitions manufacturer whose net profits were \$1,220,000 in 1931. He is a kind old man, smiling and affable, who is referred to as a "merchant of death." In fact, he has a soft, kindly manner and is a man whose merchandise snuffed out the lives of thousands of men.

What is more, he sees nothing wrong in the trade and feels there is no anachronism in founding the American ambulance service during the World War, while his guns moved down thousands of men daily.

An American who has lived in Paris since 1884, he has just returned to this country to spend his declining days in Washington with his wife. The poet, Stephen Vincent Benet, and William Rose Benet, are his nephews.

He believes it is probable that he will live up in Europe within five years and he stands to profit by such a catastrophe. Nevertheless, he has no qualms about it. He believes his guns saved Paris and is proud of the fact.

"Farmers, millers, cannerymen, in fact anyone producing the necessities of life help win a war too. They are not at all different than munitions manufacturers," says L. V. Benet.

Short Cuts

For stuffed eggs, shell hard cooked eggs and cut in halves lengthwise. Remove yolks and mash well. Add to mashed yolks a small amount of soft butter, finely chopped mustard, cucumber pickle, enough of the mustard dressing from the pickle to moisten the egg yolks and salt to taste. Fill the egg whites with this mixture. Sprinkle lightly with paprika as a finishing touch.

DAYTIME WEAR

Copyright, 1936, by Fairchild. The daytime costume, in turquoise blue linen, is trimmed with bands of brown linen and brown buttons. There is a small pocket in the skirt, and the little waistline jacket can be doffed.

Modes and Manners

QUESTION: "May a bride send out printed cards of thanks to the donors of wedding gifts upon returning from her honeymoon?"

ANSWER: A printed card would be a mark of discourtesy. Each donor is entitled to a brief personal letter of thanks.

QUESTION: "In the absence of a woman's dish and ladle, what is the correct way for serving soup?"

ANSWER: Any small dish may be used for this purpose. It may be of glass, porcelain, or silver, round or oblong. Fill the dish, put it on a plate and send it around equipped with the sugar shell in place of a ladle. If you have no sugar shell, any small spoon will do.

QUESTION: "Is there any prescribed order for removing dishes when clearing the table?"

ANSWER: Food should be removed from the table first, then the soiled dishes.

Rouge High On Cheeks Helps Eyes

By JACQUELINE HUNT

YOUR eyes are your most dramatic feature, so it will pay you to spend more time caring for them and learning the beauty tricks that enhance their loveliness.

The tissues surrounding the eyes are the most delicate in the body. For this reason they are first to show signs of weariness, neglect or ill health. For the same reason they are quick to respond to intelligent care. Cleanse this area with an oily cream, wash and then apply a bit more cream and leave on over night.

Use a special eye cream or muscle oil under the eyes occasionally. Always use gentle massage so you will not stretch or irritate the delicate skin and tissues. Smooth or tap the creams and other preparations around the eyes with the lightest touch of your fingertips.

Lovely eyes can be made lovelier with the right cosmetic tricks.

Put a little rouge high on your cheeks and use a reasonable amount of eye shadow on your lids to make your eyes seem even larger, brighter and deeper. Never bring your hair forward in waves or ringlets at the temples or sides if you want your eyes to stand out.

And never use your face powder near the eyes or on the eyelids.

Make it a habit to brush your eyelashes and apply a small amount of petroleum jelly or eyelash grower at night and brush with a clean, dry brush after you apply your cosmetics for the day.

Do the same for your eyebrows and oil them to keep them shiny, silky and healthy. Shape the brows by smoothing them with your little brush. Then pull out all straggly hairs that fall outside of the clear-cut line and those that grow over the bridge of the nose.

If your eyebrows are pale in coloring or if they are too short, use a hard, wood-encased eyebrow pencil to give them a more definite line. Use mascara on pale, thin eyelashes to give your eyes brilliance and depth. There are new, creamy mascaras that come in little tubes and are easy to apply. They are lasting and will not dry the lashes.

Next to your eyes, your forehead plays an important part in giving you an open, youthful countenance. Your hairline has much to do with the beauty of your forehead. If your hairline is regular or if you have a widow's peak, plan a coiffure that sweeps backward and emphasizes both.

Cleanse your forehead as carefully as the rest of your face and give it the benefit of the same creams and tonics. Massage it briefly each night, beginning near the center and working out to the hairline at the temples. The working from the eyebrows, work upward to the hairline with press-and-lift movements. Apply your make-up carefully, for a shiny forehead is just as conspicuous as a shiny nose.

Beauty Tips

QUESTION: "My hair is a queer mossy shade almost like a dull, uniform gray. I would like to dye it. Could you suggest a shade that would be good with my coloring? I have a fair, clear skin and dark blue eyes. My cheeks and lips have a good color, so I rarely use rouge or lipstick—Mae."

Why not leave your hair as it is and try to play up its unusual color? Go to the best coiffure man you can find and have him give you a truly distinctive hair cut. Brush your hair and care for it until it is silky and full of life. Accent the coloring of your cheeks and lips if necessary for contrast. Use black mascara and blue or blue-violet eye shadow to give your eyes the right emphasis.

QUESTION: "My arms are very thin and I have large, conspicuous veins in the arms and hands. How can I overcome this trouble?"

Wherever recreational existence is an outdoor one, sports clothes are tops. The program of outdoor life that keeps a girl on the jump from one activity to another provides little time for change. She naturally gets to be a quick change artist, leaping from jacket to shorts, slacks, culottes and skirts. Hence the great success of the assembly-your-own costume which is built around color.

This season, culottes and skirts will run apace in the lineup of "separates," with culottes possibly having the edge. The gored skirt is a favorite with active women who still affect skirts. Drill culottes have a this-season look. They are sturdy enough to withstand the wear and tear. In addition they can be worn with propriety on the main streets where people may look askance at the shorts, slacks and skirts. Hence the man who confines himself to walks on nearby paths, shirt and short costumes in linen or pique remain good choices.

There are also shirt and short outfits which adapt themselves to a variety of moods, one type being the four-piece costume consisting of shorts, halter top (high and backless), shirt and matching culottes. These items can be assembled in a variety of ways to meet the demands of informal and more formal occasions.

Cool to Wear on Hottest Days

Attractive Mona Barrie, featured film player, displays a new and smart bathing costume, as she appeared recently at a Hollywood resort. The costume, meant for cool wear on hot days at the watering spot, favors the new striping. Harness straps run over the shoulders and knot in a bow at the back. Of course, cool sandals complete the skirted costume.

Speaking of Styles

Culottes in Sport Garb For Summer

By IRENE VAIL

New York — A "trip down to Coney or up the bay" may not be the modern girl's objective but the idea is the same. Custom has elongated her play time from a Sunday afternoon to a week-end, which means that play clothes are of increasing interest and importance.

MODERN WOMEN

Analyze Your Talents When Seeking a Job, Mrs. Martin Advises

By MARIAN MAYS MARTIN

WHEN an untrained woman has to step from her home into the business world and get a job, she needs all the assistance she can get.

Such a situation is not an easy one. But if such a woman has the wit to enter fields in which she is not entirely unfamiliar, her chances will be better.

The first mistake such a woman makes is to pick some field already overcrowded with younger women who are trained in that particular work.

It is usually stenography.

A woman who has made a study of the untrained, unemployed woman has expressed her view in a magazine article in which she attempts to answer the question: "Can the untrained housewife make good?"

Loire Brophy tells us she can and says in part:

"Homemakers who enter secretarial schools where girls out of high school are being placed into competition with them, suffer cruelly. There are schools where training courses for the older woman can be secured. And if there is to be an effort made by the homemaker toward training, it is better for her to try to learn work more in keeping with her requirements. While I do not agree that secretarial work is the ideal job for the homemaker who is trying for a new field, I do believe that in the smaller businesses there is a place for the older woman in this capacity."

Miss Brophy goes on to say:

Hidden Talents
"I have asked these women who come to be advised, 'Haven't you a single, special thing which you know how to do best?' and had them reply, 'No, indeed, there isn't a thing that I can think of which can be turned into a paying job.'"

Then I have started in, something like this: 'I suppose you can bake and make pies?'

"Modesty she replies she took a prize at the State Fair in baking and that later people came from all points to buy from her at holiday times. I asked her if she can crochet and make lace. Oh, yes, she says, she has a smile to the lovely hand-made lace collar on her dress—she made that."

"A little more inquiry and I find that this woman, who knows of nothing in the way of a special job for herself can make dolls out of rags; knows how to raise catfish and tropical fish, and had made quite a paying hobby of these when she had time some years ago."

"I showed her that no matter how she tried she can never overtake the girls who began studying shorthand when they were fourteen and who can type as fast as a person can talk—and that book-keeping and filing are all jobs for the younger woman today."

Avoid the Obvious
The domestic woman who has had no previous business experience is adrift when she is forced to strike out for herself. She will do well to remember, however, that it's best to avoid the obvious and recall that the women who have really succeeded in finding their niche have been guided by their ability and desire.

It is harder to make a living at something foreign to one's natural inclinations than to work along lines which are pleasant and easy.

By developing the talents one has, the person runs a better chance of succeeding than by abandoning one's talents and attempting something new and perhaps disastrous.

Obviously, one must consider supply and demand, but any number of women will tell you that where none existed.

The woman who brings imagination to her problem has it more than half solved. Don't follow the beaten path. It is bound to be over-crowded. The imaginative woman who blazes a path will have it to herself until some less imaginative person follows in her footsteps.

The woman who would have opened a boarding house or restaurant furnished rooms ten years ago now contributes to the women's exchange or takes orders direct for homemade pies and cakes or catering. Or else she opens her house to tourists.

The woman who formerly opened a shop now sells her wares to women who have always had the time and the inclination to shop.

In suburban communities where the personality behind the enterprise counts, there have been a number of successful ventures.

This seems to warrant the statement that the woman, particularly the middle-aged woman, who must find work had better exert herself along some line in which she can still be her own boss.

For Carpeted Floors
It takes more than cleanliness to insure a long life to carpeted floors. Such floor coverings last for frequent reconditioning. Loosened, they do not stand up well under the strain of busy feet.

OLD PEOPLE find way to keep breath wholesome

Halitosis (bad breath) quickly yields to Listerine, safe antiseptic and deodorant

Either because of stomach disturbances, food fermentation, or the wearing of false teeth, old people frequently have halitosis (bad breath). No wonder others consider them a nuisance.

But now Science has found that the regular use of Listerine will often overcome offensive mouth odors due to the fermentation of tiny bits of food on mouth, teeth, or dental plate surfaces.

Try using Listerine every two or three days. See how much more wholesome it leaves your mouth. How it sweetens your breath. Lambert Pharmaceutical Co., St. Louis, Mo.

Don't Take Pills For Constipation

Ordinary pills taken to relieve constipation force a movement of the bowels without making the liver secrete its excess bile. That's why the trouble returns in a day or two and you have to swallow more pills.

What every constipated person needs is a good liver tonic like **Kraft's** which thoroughly cleanses the digestive system of all foul secretions and at the same time restores the torpid, lazy liver to proper working order. When this is done you will no longer have frequent headaches, coated tongue, yellow skin, sour stomach, gas, bilious attacks or other symptoms of constipation and liver trouble.

Kraft's is made from the juices of harmless medicinal plants. Nature's own remedies—that act in a mild, easy way without weakening or irritating the organs they treat. **Kraft's** is a safe, reliable, and effective remedy for constipation and liver trouble.

Protests Made By Soviets On Tokio Arrests

MOSCOW, May 21.—UP—B. F. Stomakov, assistant commissar for foreign affairs, tonight protested to Japanese Ambassador Tamekichi Ohta against the arrest and trial of Japanese employees of the Soviet Embassy in Tokio on charges of espionage.

Stomakov said the arrested men were merely translators for the embassy.

Simultaneously, he reiterated Russia's protests against the alleged anti-Soviet campaign being conducted by the Japanese press and alleged measures taken by the Japanese government to complicate the work of the Soviet Embassy in Tokio.

DARP HEAD WALKS OUT ON SOLONS

years ago has a witness, defied a congressional committee as dramatically as did the gaunt, sunken-eyed Townsend.

It was near the close of the day, after testimony against the movement had been given by two witnesses, mustered to fill the gap when Townsend failed to appear at the afternoon session without explanation. Sheridan Downey, his attorney, said he would arrive at 3:30 P. M.

But it was not until four o'clock that Townsend was called back to the stand he occupied all morning. He stood up and said he wanted to make a statement. The committee told him his job was to answer questions.

TOWNSEND "TIRED"

"In view of the apparent unfair attitude of this committee," Townsend replied, "and the unfair attitude it has shown to me and the members of my organization, I deem it my duty to say that I shall no longer attend these committee meetings."

"I am retiring from this sort of inquisition and I don't propose to come back except under arrest. And I refuse absolutely to make any further statement pertaining to this movement to this committee. Thank you and goodbye, gentlemen."

The committee will meet at 9:30 A. M. tomorrow to perfect the resolution asking the House to cite Townsend for contempt—a procedure that threatens him with jail if he persists in refusing to testify. Downey, who admitted knowing Townsend planned the defiance, said he had advised the doctor as to the committee's power and that Townsend had made the decision himself.

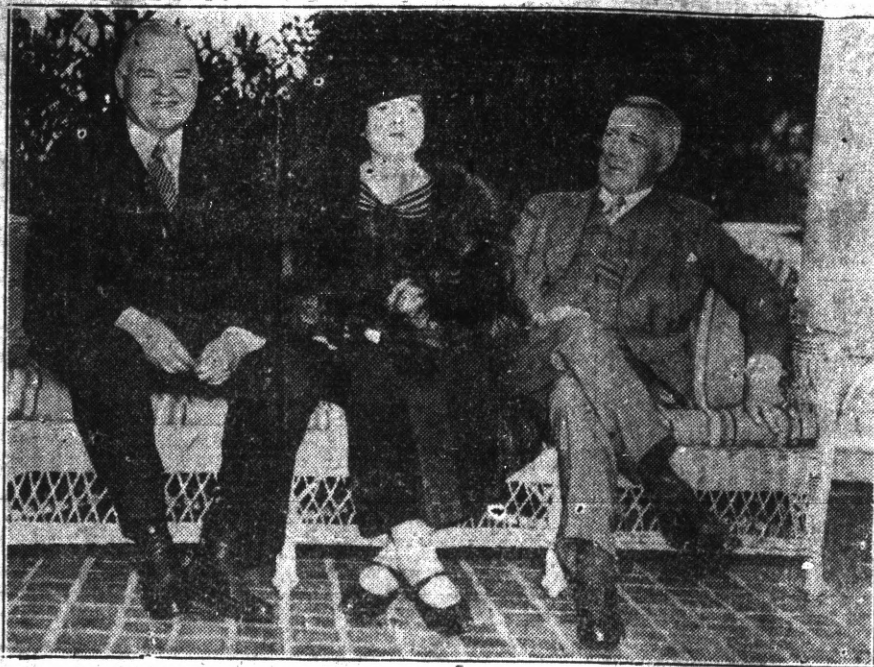

MARGETT IS IRED

"It is a dirty lie and anyone making such a statement is a dirty dog," he was reported to have told his San Francisco office. He denied also that he had been fined for liquor violations.

"That is a dirty lie, too," he shouted.

Protests Made On Import Liquor Tax

SAN FRANCISCO, May 21.—UP—Efforts to amend state laws, which prohibit bringing more than three bottles of liquor into the State without paying an importer's license of \$100 annually, will be made here tomorrow at a meeting of Federal Customs officials and members of the California Liquor Control Board.

Protests against the stringent state regulations, which were enacted to stop so-called bootlegging across the Mexican border, has been made by officers and sailors on the U. S. fleet now at the Panama Canal zone, who wish to bring beverages back with them for their home use when they return here.

George A. Marshall, assistant collector of customs, said: "So far as the customs is concerned liquor shipments up to \$100 will be passed

Russian Envoy Is Paroled To Soviet Consul

SAN FRANCISCO, May 21.—UP—Immigration officials temporarily relieved themselves of the problem of holding Jacques Grossman Gutzman, attaché of the Soviet foreign office, detained since Monday, by paroling him to the Russian consul here tonight.

Gutzman was refused entry when he was refused to answer a question as to whether he would aid in overthrowing the American government.

Edward W. Cahill, commissioner of immigration, ordered the 45-year-old diplomat detained.

M. G. Galovitch, Soviet consul here, promptly protested to immigration authorities, and threatened an appeal to the State Department in Washington if Gutzman were not released.

He indicated Gutzman probably was unable to understand the question and declined to answer for that reason. The Soviet attaché's parole apparently was on instructions from immigration officials in Washington.

They said Gutzman would be released from parole as soon as his papers were forwarded to Washington.

Gutzman came here to study dairy farming in California.

Yep! Another Upside-Down Stomach Found

SAN FRANCISCO, May 21.—UP—Mrs. Clara Norton, 51, of Fallon Ave., tonight joined the growing list of persons who have upside-down stomachs.

Admitted to Spruce hospital over a week ago, Mrs. Norton underwent an extended examination by physicians, who finally came up with the announcement her stomach was the wrong way around.

Dr. M. W. Prescott, who authored the announcement, said it was the "most unusual case" he has had in 2,000 surgical cases in the past four years.

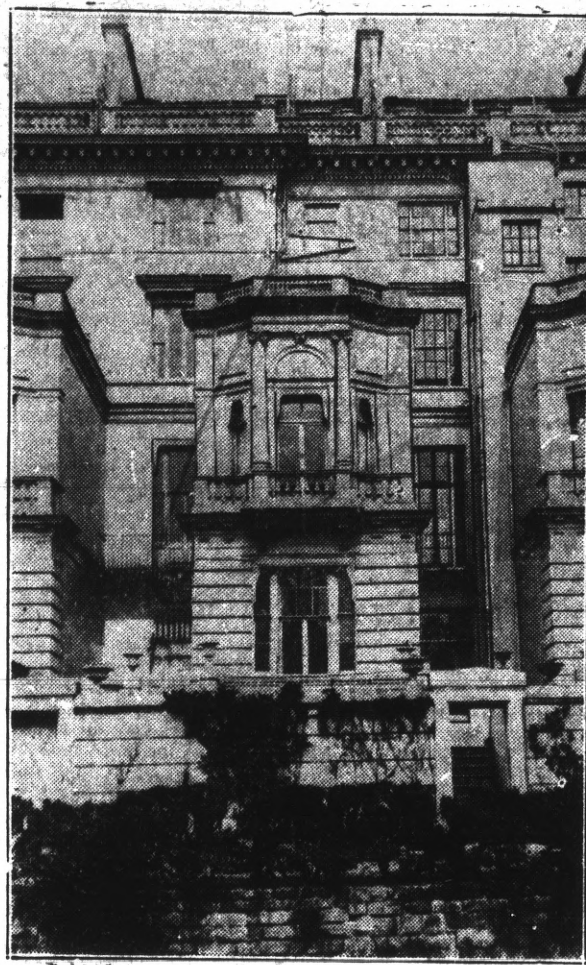

"Upside down stomachs are not unusual as recent publicity might lead people to believe," he said. "But this was the first to come our way."

Mrs. Norton was operated upon for the defect, and is recovering.

Oakland Divine Is Speaker At Church Dinner

Rev. R. C. LaPorte, pastor of the Park Boulevard church of Oakland was the speaker last evening when the Richmond Inter-Church Fellowship held its meeting at the First Christian church.

Rev. LaPorte spoke on "Symbols of Certainty." His talk proved inspirational and entertaining.

Rev. J. Chester White acted as chairman of the evening in the absence of Miss Salina Hardesty. W. P. Drumme, the president, presided.

Vocal selections were presented by Mrs. Ethel Gundry, Mrs. Craig and H. Thorson.

The dinner was served by the Young Peoples Society of the church.

The next meeting will be held September 17 at Wesley M. E. church.

Beer Drinking Is On Increase

SACRAMENTO, May 21.—Revenue from the State tax on beer and wine, will total \$167,483 for the month of April, according to R. E. Collins, chairman of the State Board of Equalization.

This is an increase of 29 percent over the taxes collected from this source in April, 1935, he said.

"It is our belief that the low rate of taxation on beer and wine in California is partially responsible for the revenue from this tax being higher than was anticipated," he stated.

"Our tax of two cents a gallon on wine is the lowest of any State in the country, and California's consumption of wine is by far the largest of any State. These states with approximately the same population and taxes of ten and twenty cents a gallon, or higher, show an insignificant consumption of wine compared to California."

"Apparently it is in the interest of the State to refrain from placing exorbitant taxes on beer and wine."

The assessment was based on distribution during April which was 6,540,413 gallons of beer and 1,747,413 gallons of wine, Collins said.

Tariff Raised On Cotton Goods

WASHINGTON, May 21.—UP—President Roosevelt today ordered tariff increases on certain types of bleached, unbleached and printed cotton goods.

The increases were recommended by the Tariff Commission after a Senate-authorized investigation as to whether present tariff duties were sufficient to equalize foreign and American costs of production.

Imports of the textiles affected have come chiefly from Japan. The graduated increases were estimated to average about 42 per cent.

ENGLAND IS PREPARED TO HELP EGYPT

cated that both Britain and France will refuse Italy's informal request to withdraw their small military garrisons from Ethiopia.

It was understood that Britain has decided to retain the Sikh legation guard at Addis Ababa pending evidence corroborating local Italian authorities' ability to safeguard the lives and property of foreigners. Britain maintains about 125 Sikhs at the legation.

TO RETAIN TROOPS

A Franco-British exchange of views indicated that France also will refuse, at least for the present, to remove troops which she now has guarding the legation at Addis Ababa and the ration shops at Dire Dawa. There are about 150 troops at Dire Dawa.

Italy had pointed out that foreign military forces no longer are necessary in Ethiopia now that Italian troops are in occupation.

Italian authorities at Addis Ababa recently ordered all foreigners to report to the high command and surrender all arms under threat of expulsion from the country for failure to do so.

Girl Dismissed By S. F. Court In Night Club Fire

SAN FRANCISCO, May 21.—UP—The Shamrock Club fire case was marked closed today, insofar as holding any person directly responsible for the fire which took toll of four lives, when Municipal Judge Frank Dunn ordered charges against Betty Blossom, specialty dancer, dismissed.

One of two flaming torches carried by Miss Blossom in her dance touched the highly inflammable drapes decorating the walls of the night club, and started the fire. She was charged with violating a city ordinance prohibiting use of open flames without a permit.

"There was no reason to hold this girl responsible for doing what she was directed," Dunn said dismissing the charges. "Laws to give the proper municipal agencies the power to inspect these places, and to close them up if necessary, should be enacted at once."

Meanwhile, an active campaign to eliminate conditions which contributed to the Shamrock Club fire was launched by Timothy A. Reardon, chairman of the State Industrial Accident Commission.
